TRANSPLANTS

Jolly Farmer®

"Integrity, Quality & Reliable Service since 1967"

Vegetable Transplants THE MARITIMES

Jolly Farmer is pleased to offer Northern Grown vegetable transplants to the agricultural industry. We have been growing young plants for more than 20 years. With our state-of-the-art facility and dedicated grower staff, we are able to produce high quality seedlings year round. We look forward to working with you!

Seedlings are priced "per tray". This is so that the grower receives full value for every plug in the tray. It also reflects on the seed quality provided; the better the seed, the more seedlings per tray, the lower the cost per plug.

- Trays used are true 10x20.
- Quoted prices do not include seed. Results are at customer's risk.
- Prices are for orders of 100,000 seedlings or more.

What we grow...

Celery

Crop Specs: 144 size; 7 weeks old. Yield per tray approx 130. Prices: \$10.26 per tray.
